

Advanced Histopathology Course  
Princess Alexandra Hospital  
Dr Vasi Sundaresan Set 2

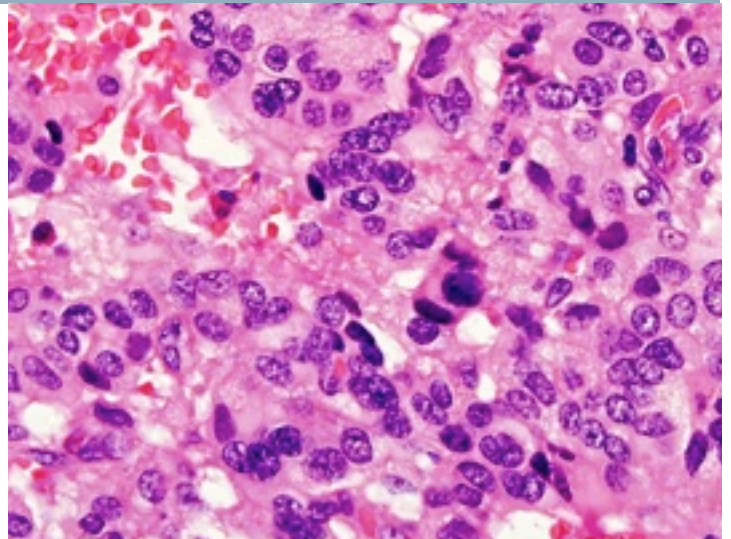

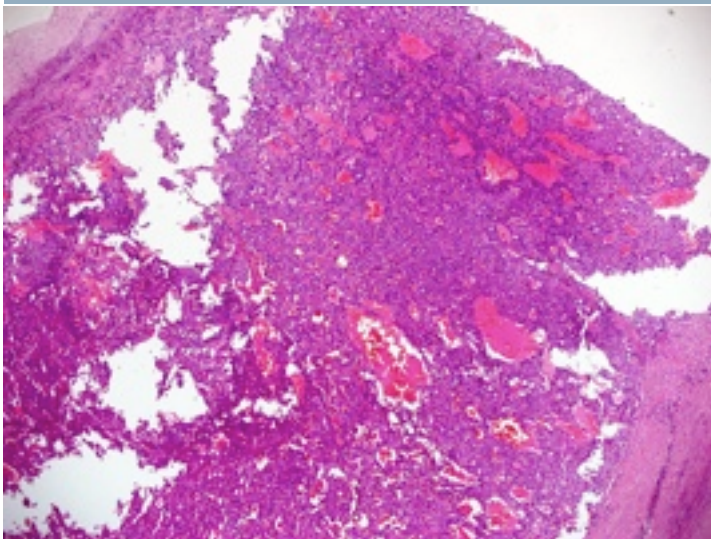

| Case | Sex/Age | Labno     | Clinical information                                                                   |
|------|---------|-----------|----------------------------------------------------------------------------------------|
| 1    | F79     | H89-8668  | Tumour from right and left nostril                                                     |
| 2    | M/Unk   | H09-8233  | Tumour attached to pancreas in retroperitoneal space                                   |
| 3    | F18     | H09-13964 | Excision biopsy lymph node left axilla                                                 |
| 4    | M70     | H08-17051 | Cyst on back                                                                           |
| 5    | M83     | H06-15351 | Lesion left forehead                                                                   |
| 6    | F79     | H06-9525  | Scanty biopsy and curettage.                                                           |
| 7    | F89     | H09-2664  | Incisional biopsy nodule right inner thigh, 2 month history purplish nodule right shin |
| 8    | F73     | H09-6614  | Large lesion from left shin started as pink spot and has become darker                 |
| 9    | M66     | H09-2968  | Diarrhoea Patchy inflammation                                                          |
| 10   | F55     | H09-2274  | SVC obstruction, mediastinal lymphadenopathy ?                                         |
| 11   | M61     | H09-11295 | Perianal lesion excised                                                                |
| 12   | M64     | H09-3032  | Right pleural biopsy sarcoidosis                                                       |
| 13   | F60     | H09-84    | Lump right middle finger                                                               |
| 14   | F27     | H09-5460  | Chronic cough PET positive ? malignancy                                                |
| 15   | F74     | H06-12474 | Traumatized papilloma left side abdomen                                                |
| 16   | M61     | H09-6917  | Liver biopsy                                                                           |
| 17   | F73     | H06-12926 | Kidney bx, no other information given                                                  |
| 18   | F68     | H09-77    | Obstructing mass ? bowel                                                               |
| 19   | F51     | H08-17868 | Buccal mucosa from inside right cheek.                                                 |
| 20   | M78     | H08-17824 | Multiple level mets ? recurrence                                                       |

**Vasi Sundaresan****CLINICAL DETAILS****TUMOUR FROM RIGHT AND LEFT NOSTRIL F79****CASE 1****DIAGNOSIS**

Meningothelial Meningioma

**DIFFERENTIAL DIAGNOSIS**

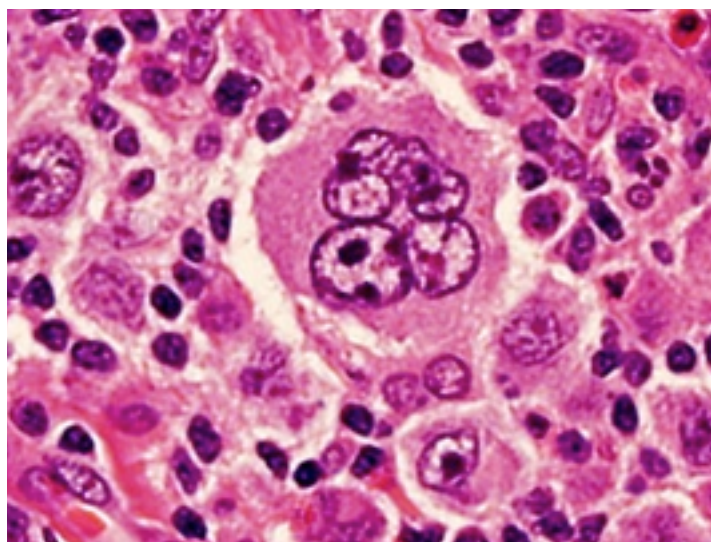

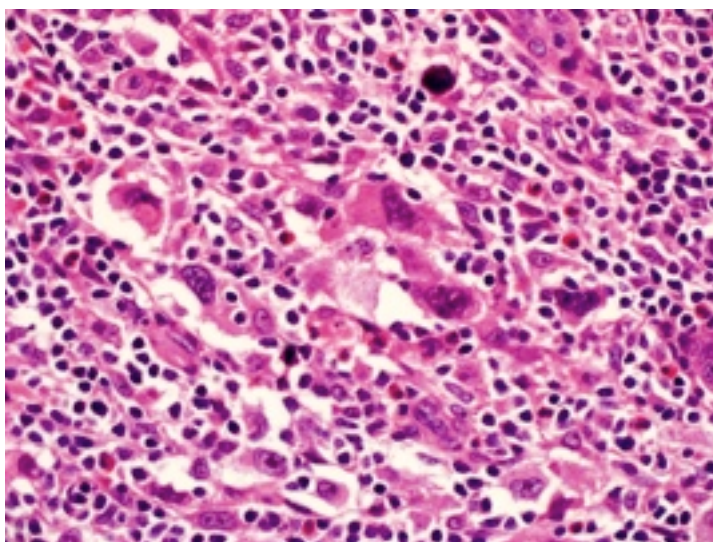

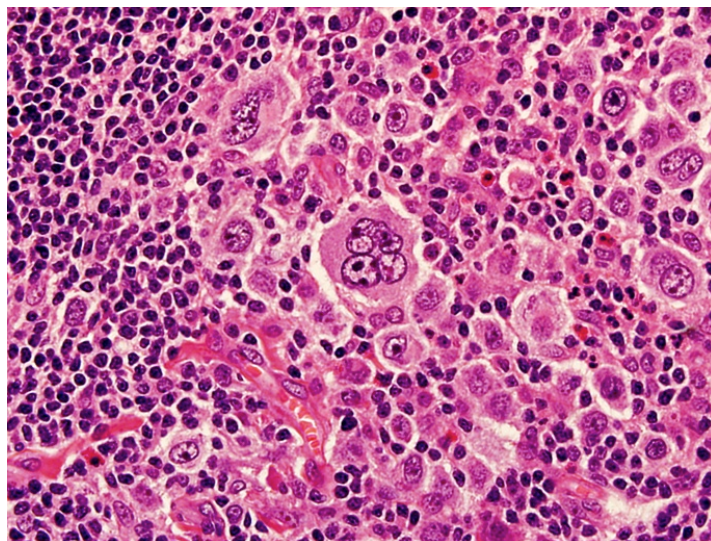

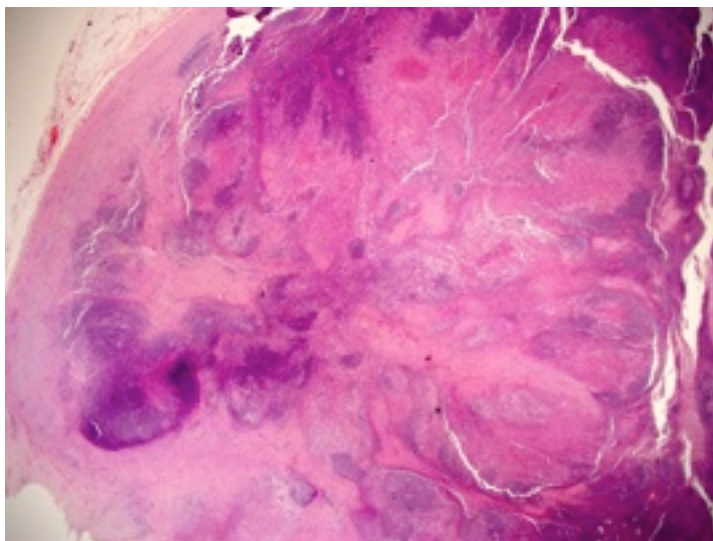

What are the other benign and malignant lesions that present as polypoid lesion from the nose?

**CLINICAL DETAILS****M/UNK AGE RETROPERITONEAL MASS ATTACHED TO TAIL OF PANCREAS****CASE 2****DIAGNOSIS**

Paraganglioma

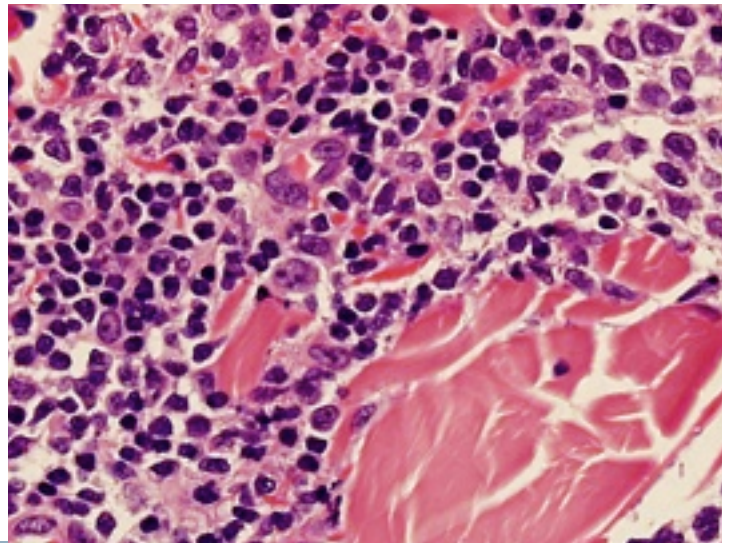

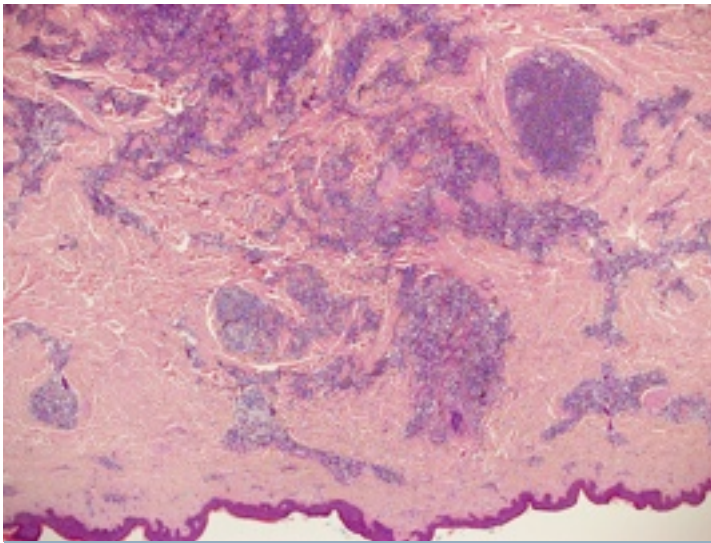

**DIFFERENTIAL DIAGNOSIS**

Packeted nested tumour - vascular with distinct pattern of S100 staining

**Vasi Sundaresan****CLINICAL DETAILS****F18 - LEFT AXILLARY LYMPH NODE****CASE 3****DIAGNOSIS**

Classical Hodgkins Disease

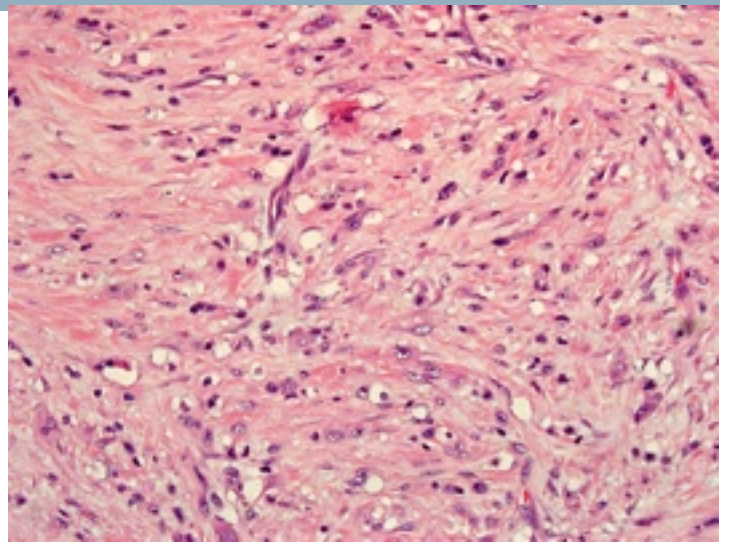

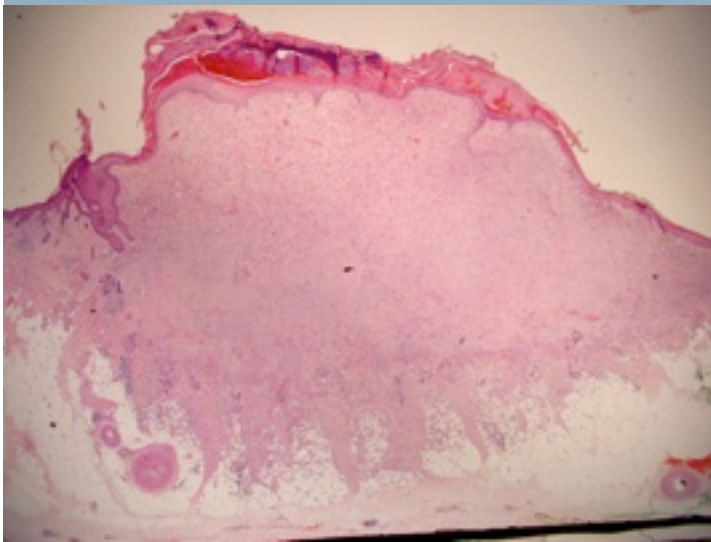

**DIFFERENTIAL DIAGNOSIS**

**Vasi Sundaresan****CLINICAL DETAILS****M70 CYST ON BACK****CASE 4****DIAGNOSIS**

Marginal zone lymphoma

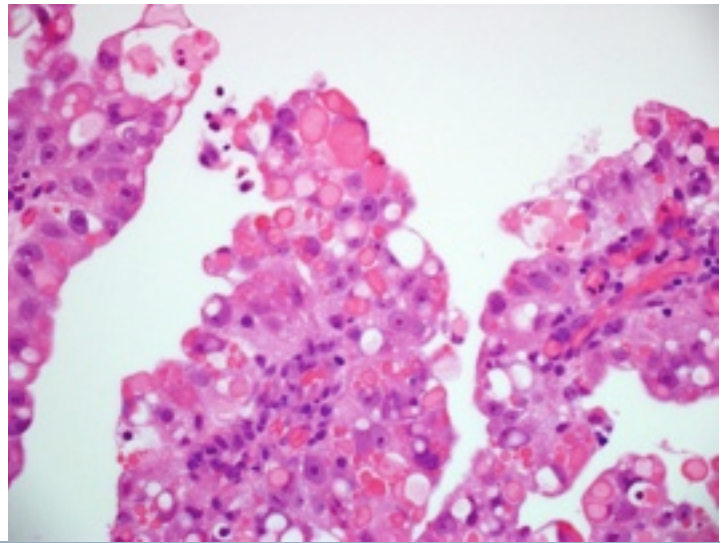

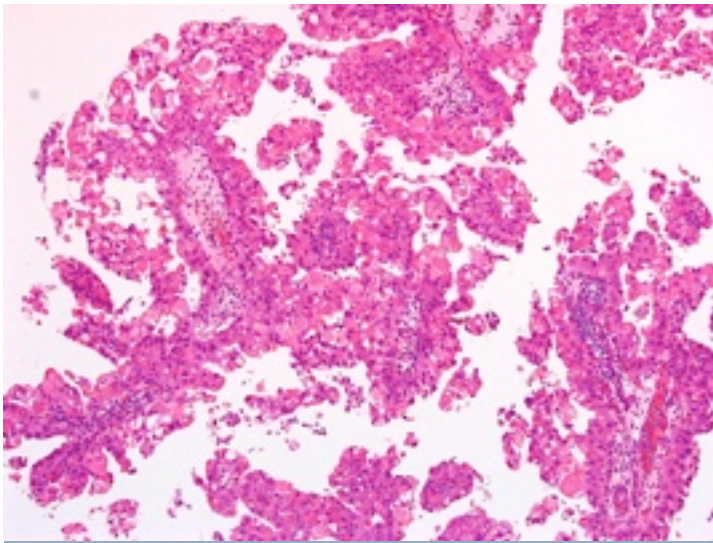

**DIFFERENTIAL DIAGNOSIS**

Lymphoid infiltrate of the skin-patient had a history lymphoma

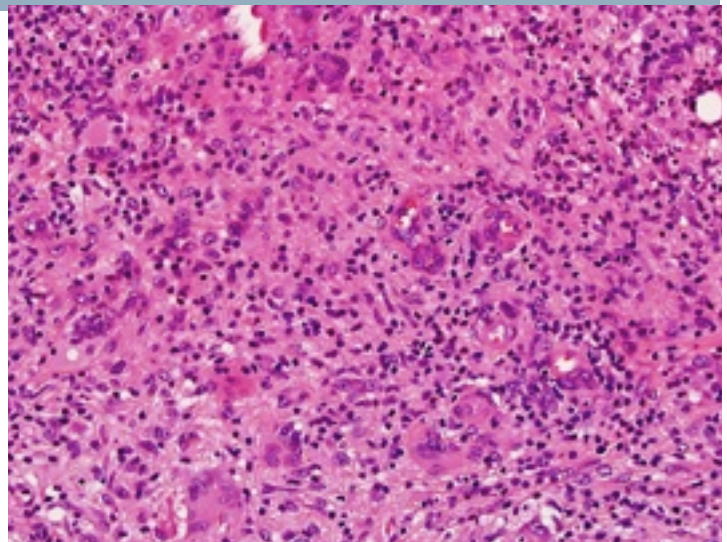

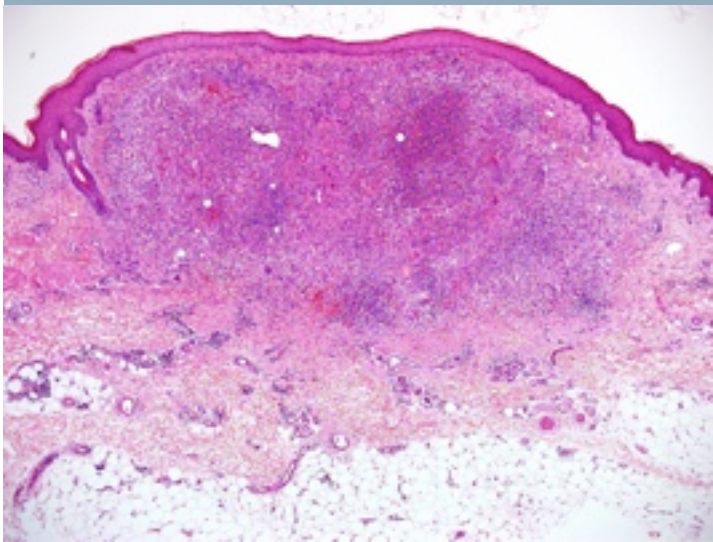

**CLINICAL DETAILS****LESION LEFT FOREHEAD MALE 83****CASE 5****DIAGNOSIS**

Malignant soft tissue sarcoma leiomyomatous lesion

**DIFFERENTIAL DIAGNOSIS**

**Vasi Sundaresan****CLINICAL DETAILS****SCANTY CURRETTINGS F79****CASE 6****DIAGNOSIS**

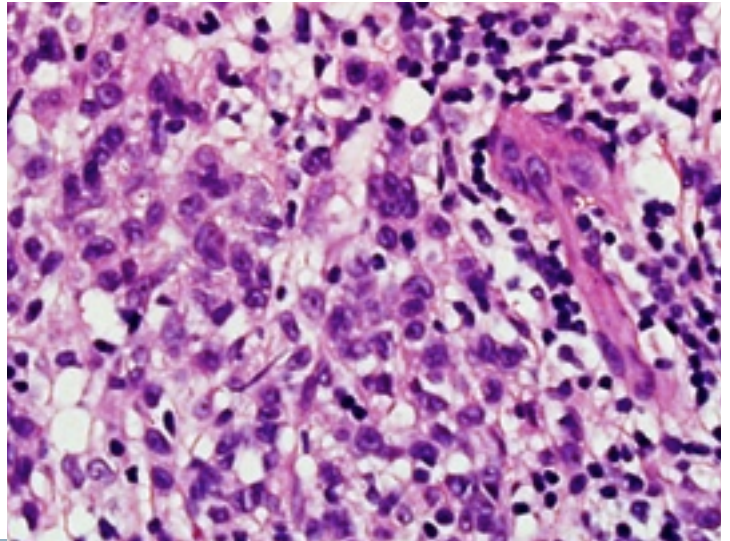

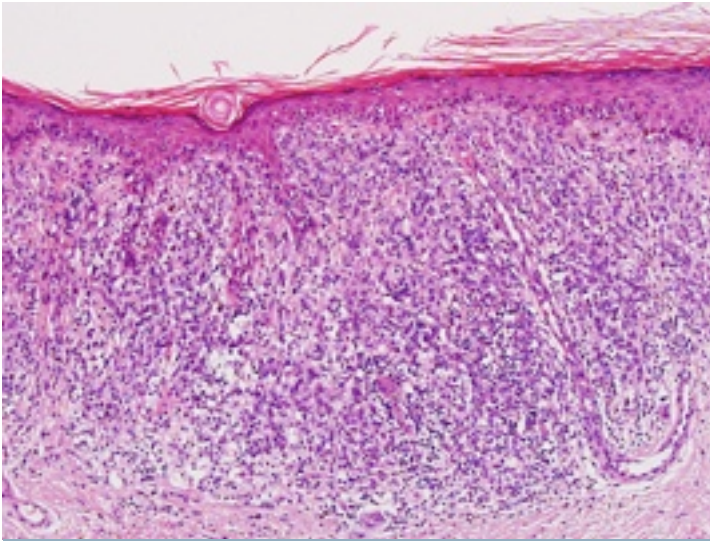

Serous Carcioma

**DIFFERENTIAL DIAGNOSIS****CLINICAL DETAILS****NODULE INNER THIGH 2 MONTHS F79****CASE 7****DIAGNOSIS**

Diagnosis

**DIFFERENTIAL DIAGNOSIS**

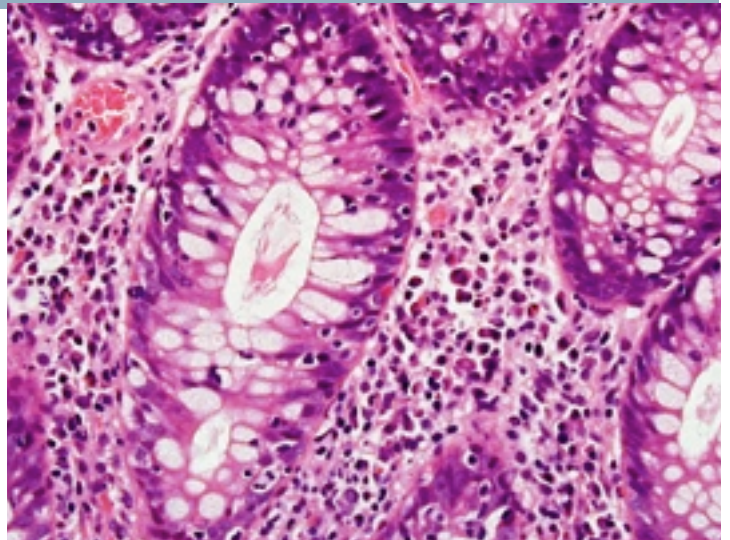

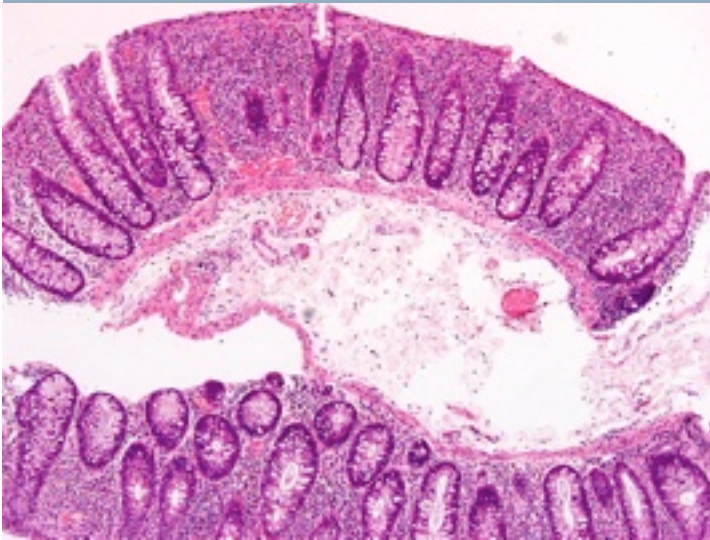

Mycobacterial disease, sweets syndrome, granuloma annulare

**Vasi Sundaresan****CLINICAL DETAILS****LESION LEFT SHIN F73****CASE 8****DIAGNOSIS**

Malignant melanoma

**DIFFERENTIAL DIAGNOSIS**

Ut orci. Duis ultricies, metus a feugiat porttitor, dolor mauris convallis est, quis. Coonsectetuer adipiscing elit. Donec enim orci, ultricies in, malesuada quis, egestas quis, wisi. Donec ac mattis sapien.

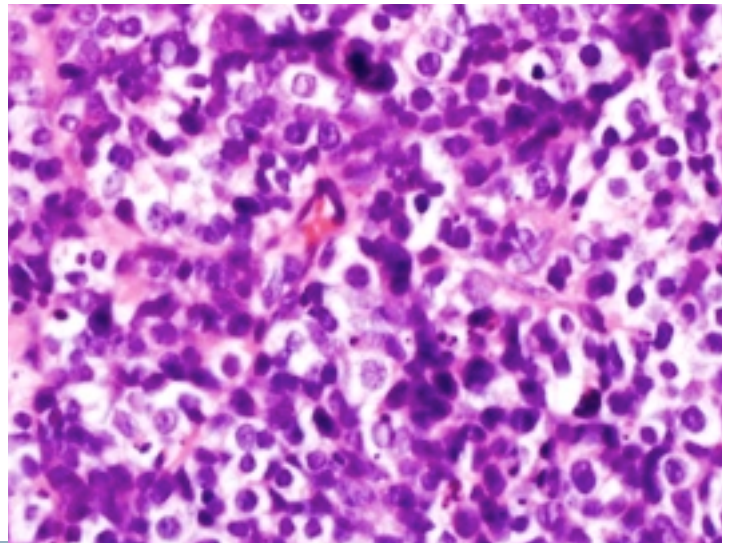

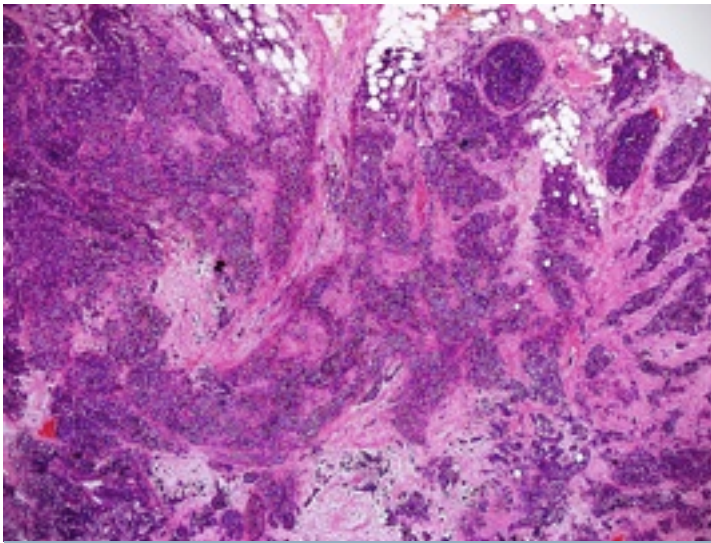

**CLINICAL DETAILS****DIARRHOEA****CASE 9****DIAGNOSIS**

Lymphocytic colitis

**DIFFERENTIAL DIAGNOSIS**

Ut orci. Duis ultricies, metus a feugiat porttitor, dolor mauris convallis est, quis. Coonsectetuer adipiscing elit. Donec enim orci, ultricies in, malesuada quis, egestas quis, wisi. Donec ac mattis sapien.

## Vasi Sundaresan

### CLINICAL DETAILS

**SVC OBSTRUCTION M66**

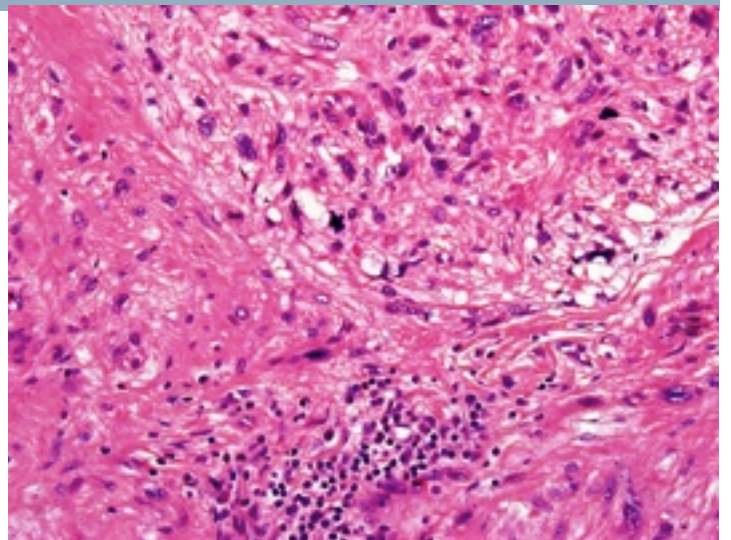

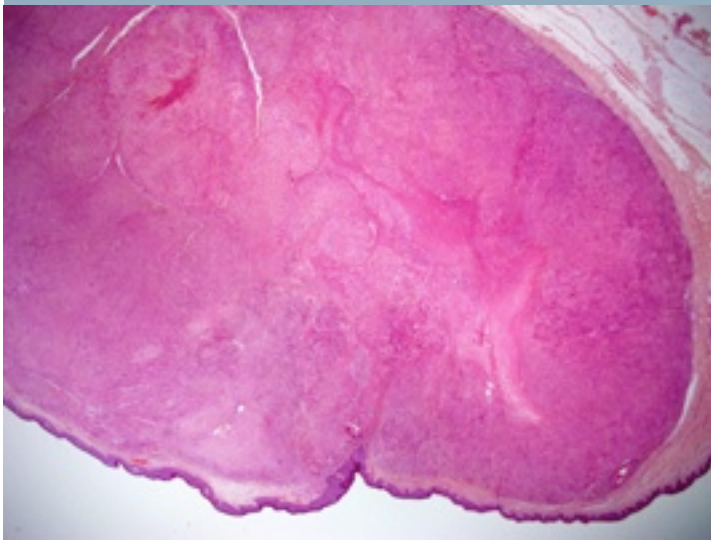

**CASE 10**

**DIAGNOSIS**

Small cell lung cancer

**DIFFERENTIAL DIAGNOSIS**

DD and immunophenotype

### CLINICAL DETAILS

**PERIANAL LESION**

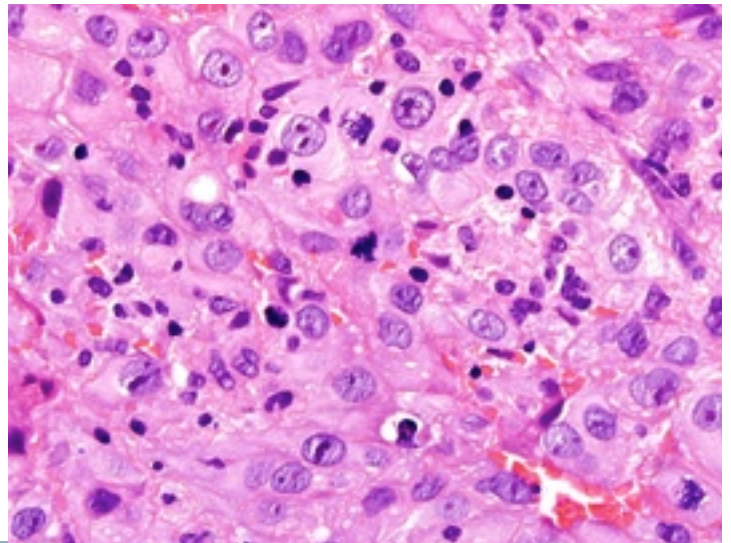

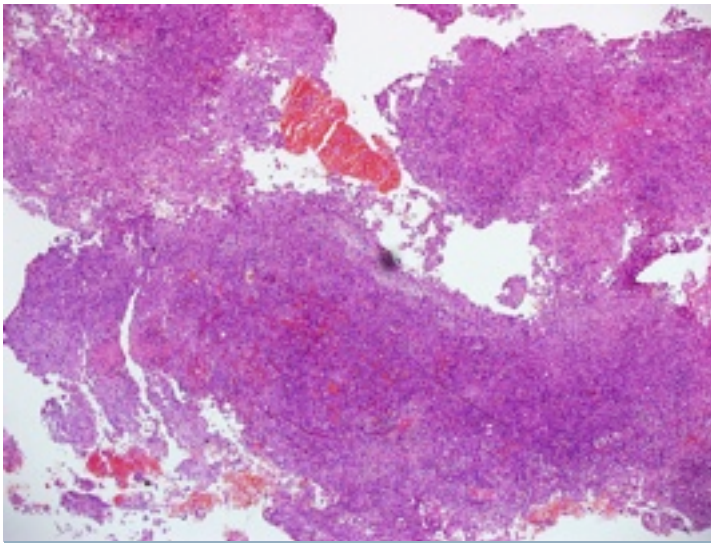

**CASE 11**

**POORLY DIFFERENTIATED SPINDLE CELL TUMOUR**

Diagnosis

**DIFFERENTIAL DIAGNOSIS**

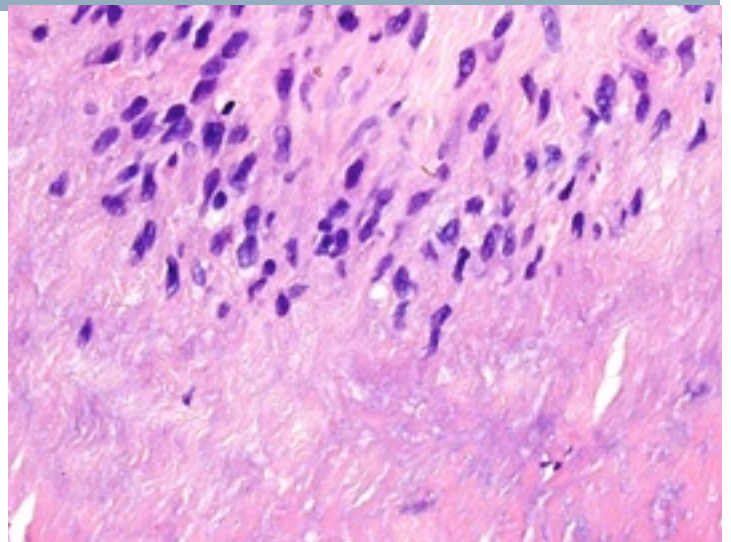

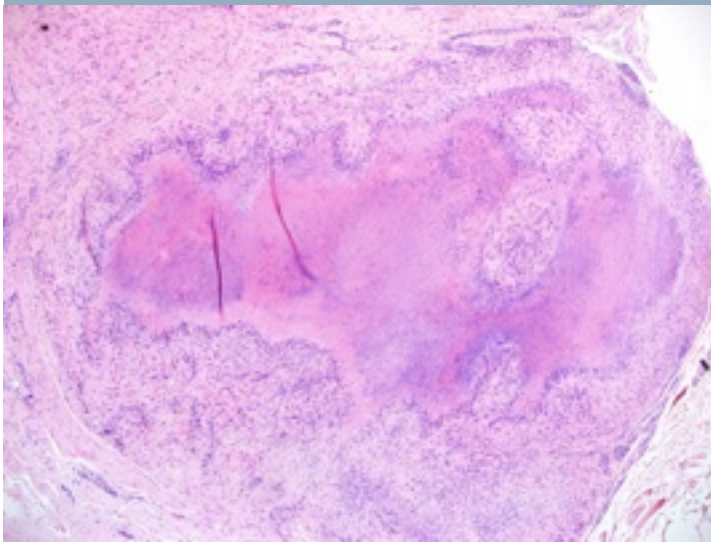

resort to immunostains

**Vasi Sundaresan****CLINICAL DETAILS****M64 RIGHT PLEURAL BIOPSY-? SARCOIDOSIS****CASE 12****DIAGNOSIS**

Epithelioid mesothelioma

**DIFFERENTIAL DIAGNOSIS**

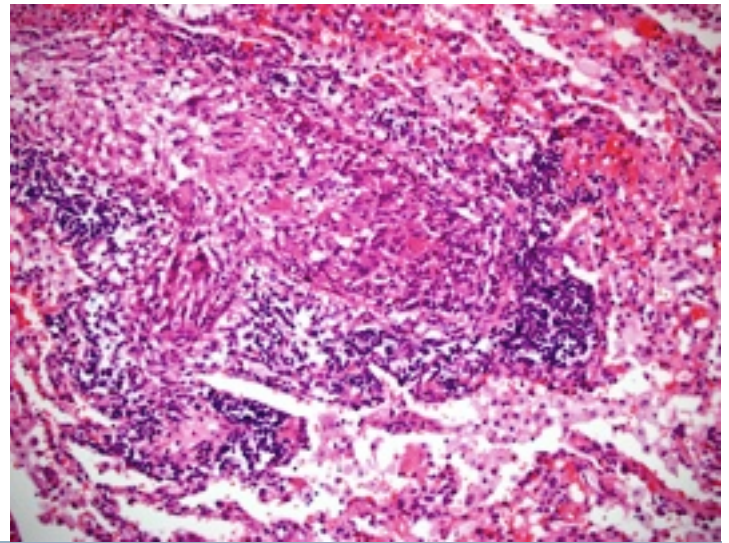

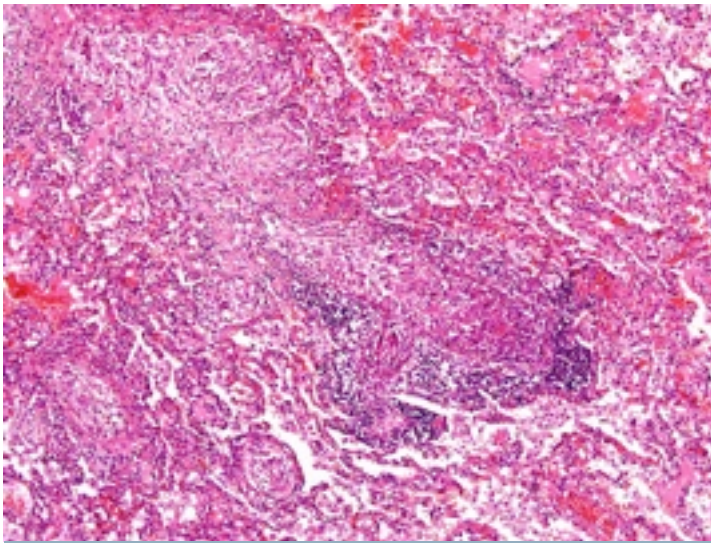

immunostains

**CLINICAL DETAILS****F60, LUMP RIGHT MIDDLE FINGER****CASE 13****DIAGNOSIS**

Rheumatoid nodule

**DIFFERENTIAL DIAGNOSIS**

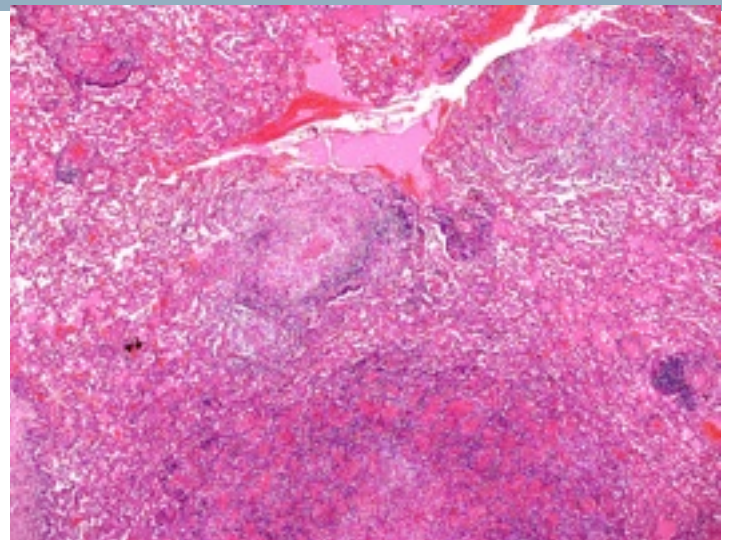

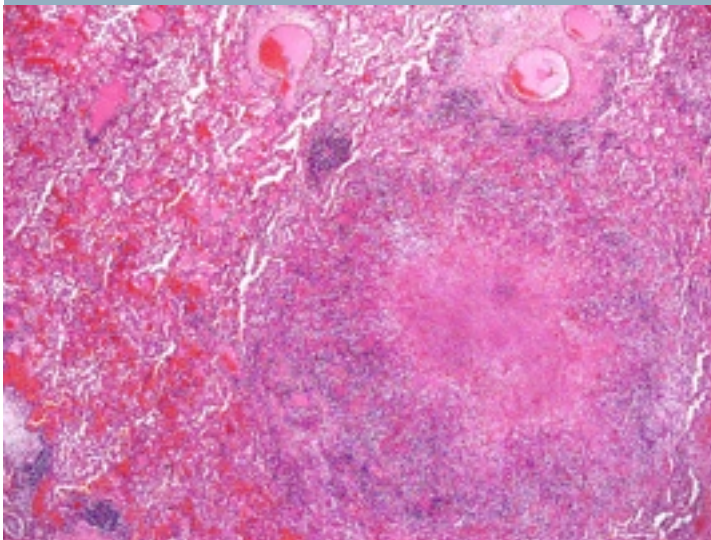

necrotic focus with a histiocytic granulomatous response

**Vasi Sundaresan****CLINICAL DETAILS****F 27 CHRONIC COUGH PET POSITIVE LESION****CASE 14****DIAGNOSIS**

Diagnosis

**DIFFERENTIAL DIAGNOSIS**

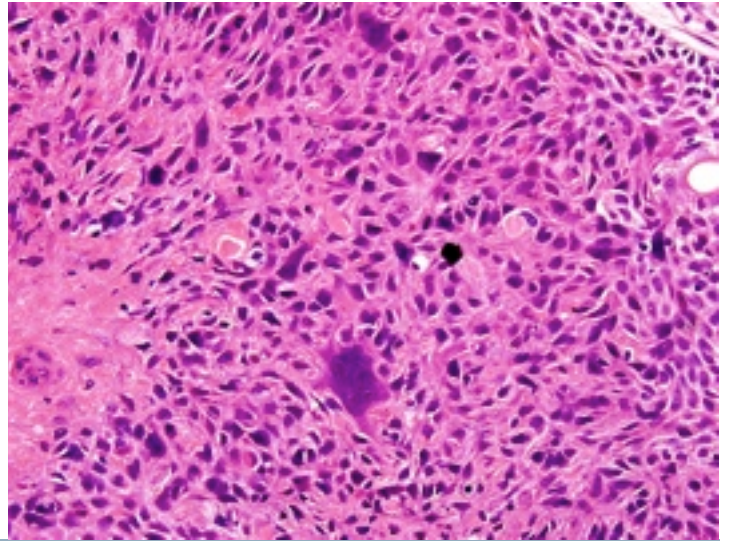

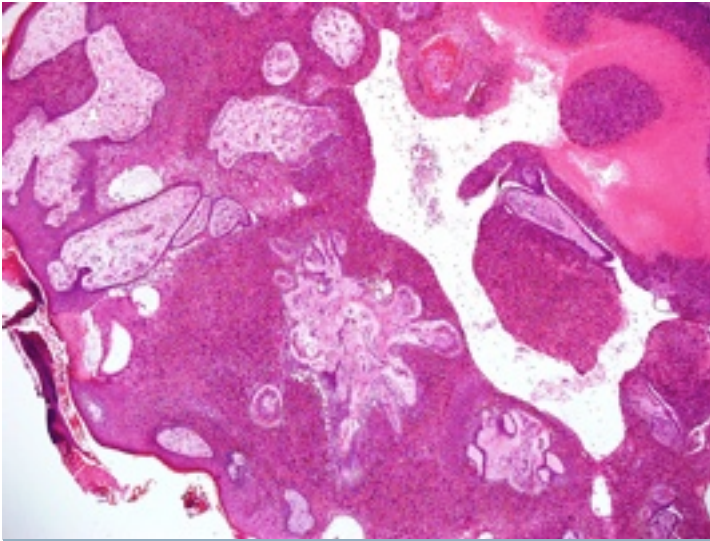

Mycobacterial disease, fungal disease, PAN, Wegener's, Necrotising form of sarcoidosis

**CLINICAL DETAILS****MOLLIT ANIM ID****CASE 14****DIAGNOSIS**

Diagnosis
